Summary

I am a passionate and dedicated computer science graduate with a strong foundation in Python programming and a good understanding of web development technologies including HTML, CSS, and JavaScript. I have also gained hands-on experience with Data Structures and Algorithms (DSA), which has helped me develop problem-solving and logical thinking skills. I am eager to apply my knowledge in real-world projects and continuously learn and grow in the field of software development.

Technical Skills

- **Programming Languages:** Python
- **Frontend Technologies:** HTML5, CSS, JavaScript
- **Framework:** Reactjs
- **Tools Technologies:** MySQL, Git/Github, Vscode
- **Design Patterns:** Object-Oriented Programming (OOP)

Projects

- **Online Shopping Website**
 - Developed a responsive shopping website using HTML, CSS, and JavaScript for the front-end.
 - Implemented user-friendly UI features such as product listings, search functionality, and shopping cart.
 - Implemented and maintained the **functional layer**, reducing test failures by **30%** and significantly improving the stability of test execution.
 - Ensured the website was mobile-friendly and optimized for performance.

AI Chatbot using Python

- Designed and developed an AI-based chatbot using Python, capable of engaging in basic conversations and responding to user queries.
- Used Natural Language Processing (NLP) techniques to understand and generate human-like responses.
- Strengthened skills in Python, problem-solving, and logical flow design.
